

# SYSTEMS HEALTH CARE CERTIFICATION

The Systems Health Care Certification is for those doctors and therapists who have demonstrated a thorough understanding and application of the SHC protocol via a practical and written exam. You'll be eligible to take this certification if you've taken all four workshops in the SHC Workshop Series. The certification may also be given to those who have studied SHC via the SHC Video Series. (This will be determined on a case-by-case basis.) The individualized practical exam and written portion will test your knowledge and skills of the SHC protocol but it will also act as a teaching tool.

Upon passing, you'll be:

- Listed as a Certified SHC Practitioner on the Systems Health Care website.
- Invited to advanced SHC workshops.
- For those who have attended the entire SHC Workshop series, you'll be able to attend any future SHC Workshop Series classes for free when space is available. This is the Basic SHC 50-hour series which you would have previously taken.
- More certification perks as we think of them!

**Cost:** \$300 (The written and practical exam are one test. Therefore, you must pass both to become certified. Recertification testing is \$200.)

**Date and Location:** TBD
